

Air – Water – Surface Treatment Solutions

We offer entire range of UVC system components to meet project specific needs of replacement and equipment output restoration.

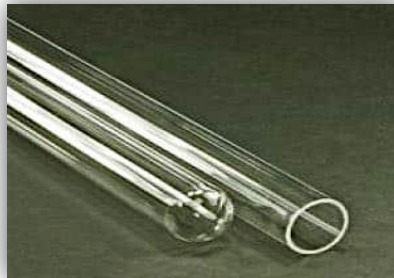

Components	Lamp – Quartz Jacket – Ballast – Sensor
Application	Germicidal
Lamp Types	Regular – High Output – Amalgam Lamp
Output Range	4 to 600 Watts
Wavelength	254 / 185 nm
Length & Base	Customized
Working Life	Up to 10,000 Hours
Base Design	

Ballast

Quartz Jacket

Sensor

Why We +

- Experienced and certified technicians
- High-quality UVC lamps and components
- Timely and efficient services
- Cost-effective solutions
- Customized service plans based on your specific requirements

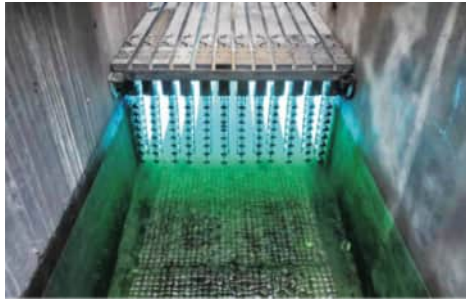

Industries

Water Treatment (WTP/STP), Pharmaceutical, Chemical, Healthcare, Food & Beverages, HVAC, etc.
